A: Video Source - The Pre - production

Video Sourcing means is called Pre production at China Media Productions. It is the easiest and sometimes the most creative, fun part. Even if you don't do it 100% yourself, you can do a lot of it; experience helps but the process is largely logical. Sit down and think about it, using real TV shows as your guide. Read through other articles on our blog to get a clearer picture of all the things you need to consider before the camera ever comes out of the box.

\$45 per hour on Site Job /3 hours Minim

\$25 per hour in Studio / Actual Time at produced video by a full fledged production house.

B: Artistic Editing - The production

1. Artistic Editing at China Land Media Production (**CLDP**) is 2nd phase includes anytime the camera is out taking video or a microphone is in use. Getting video and audio onto a tape or hard drive is what production is all about. For the novice, this is probably the most complicated stage. This is what you should outsource means the Interview with AD for TV
2. Stage of Artistic Editing at (**CLDP**) also means that artworks are supplied by either the clients or the paid Video Source (A). It means that the simple Photoshop work editing might be required in order to work on the images provided. The clients is required to provide the voice and scripts of the text as required.

C: Artistic Creation –

Artistic Creation means the clients provide nothing but stories. It includes scripting, imaging and drawing and 3D artworks if needs, mainly all editing and duplication. **Artistic Creation** is time consuming and therefore expensive. Computers make editing easier and less time consuming, so it's not unrealistic at for a inexperienced person to do their own editing.

2. Additional \$50.00 per minutes for artistic editing with supplied voice and motions pictures plus images.
